

Joint proposal on the working methods
by
Cuba, Peru, Republic of Korea, Russian Federation and Ukraine

To make our work more effective and reduce time of preparing the Convention and, since an official nomination of delegation by their respective Governments has been requested, we propose that participants agree on the following:

1. Each paragraph of a draft Convention is to be adopted by consensus.
2. The paragraphs on which no agreement was reached, should be placed in brackets and reflect all positions or wording suggestions.
3. The matters of substance shall not be included in the draft during an intersessional period but only at the plenary meetings after a due discussion by all participants.
